# Climate-Smart Approaches

## Project Oasis

Pioneering eco-initiatives to recycle multi-layered plastic and converting them into utility products for various end uses like -

**1** Making of  
**STOOL**  
**=833**

Wrappers of Chocolates  
are processed

**1** Making of  
**FLOWER POT**  
**=8080**

grams of discarded  
plastic are processed

## Project Bunaai

Endeavors to foster women's empowerment via up-cycling laminate plastic wastes into handcrafted fabrics.

## Tree Plantation

Initiating plantation drives for a green transition with the successful planting of **50,000+** trees.

## Water Harvesting

Installed water bodies to mitigate temperature fluctuations and managed to harvest around **25000 Litres/Year** of rainwater.

## Solar Panel

Partially powered with solar energy generating units which produce more than **61,00,000 Units/Annum**.

## UPS System

Built-in UPS systems to maximize energy utilization and improve the overall productivity of the manufacturing units.
